## Niyet Mektubu

I expect a good way and technique of Education and Practical Learning and developing more of my presentation skills and help to have a good understanding of theories and after graduation i intend to apply to a Master Degree in Germany and help others

Please explain your expectations from the higher education in Turkey and your plans for after graduation.

As i knew, Turkey has a good position in the field of Higher Education allover the world and some Universities have a advanced positions in the Ranking of Universities all over the world and it has equipped labs and qualified professors.

Please indicate why you have chosen Turkey for higher education.

As i love Mechanics generally and i am mad of Automotive and its systems and to know how the car work and all mechanisms besides loving cars like BMW & Mercedes and for that i tried to enter competitions related to it and read in these Fileds.

Please indicate why you have chosen these particular departments and your knowledge about these departments.

## ● Hobi Bilgisi

Hobbies are very amazing and every one of us should have some hobbies and they shouldn't be in my field of study. I have some Hobbies in sports as i was training to play a volley ball in a club near to me and i love volley ball. Also i have a passion of table tennis and i played it for 3 years with my friends and i am still playing it. About books, two years ago, i didn't like reading books and i found that was a very boring hobby until one day when my friend give me a book and said to me that you should read it and from that day i started to like reading books as i read a lot of novels and other books. About Travel, i like to travel to new places and discover it but all that places were inside Egypt and one more thing, The Food, that was my Favorite part as i tried a lot of restaurants and different species of Food these were some of my Hobbies.
